

Meet your CFMT Relationship Manager

Tina Randolph

Tina joined CFMT in 2008 and has been a cornerstone of support ever since. Known for her warm approach and best-in-class customer service, she takes pride in helping donors and fundholders feel connected and cared for. Tina plays an essential role in supporting the Philanthropic Services team - helping to onboard new funds, maintaining meaningful donor relationships, and ensuring that every contribution and acknowledgment is handled with care. In addition to her donor-focused work, she serves as Fund Steward for 28 funds and helps foster a positive, connected workplace culture through her involvement with the Celebration Crew Committee.

When not working, you can find Tina exploring nature on walks with family and her dog, Caramel. Her current obsessions are wild ferns, moss, lichen and spending time on her front porch of her home affectionately known as the One Acre Wood.

Fun Facts about Tina

What's your favorite part of working at CFMT?

I love joining others in serving our Middle Tennessee communities and nonprofits through supporting Donors and Fundholders. I am an encourager, and I get to do lots of this through CFMT!

Dream job:

I was raised with an appreciation for all types of music. My dad was Southern Rock and Classic Country and my mom was a Motown girl. I dreamed of having my own record company and producing music. I even had a name for my recording studio: Manifest Destiny.

Unusual item in your workspace:

I keep a variety of items handy for anyone passing by my work station, these include eyeglass wipes, stain remover pen, candy/mints, packets of herbal tea, hand lotion, and essential oils. If you need it, I probably have it!

Favorite hobby or activity:

My daughter and I listen to an audiobook, while learning how to paint with watercolors. We follow an artist on Instagram who started a challenge to fill up a sketch book with creations.

Go-to way to unwind:

Getting outside! A hike with our dog, Caramel, or venturing out to a festival. We have such varying schedules so when we can gather together in nature we are all in.

Morning routine:

I am a firm believer in starting my day with as much calm and coffee as possible. We live in the middle of the woods and my front porch on the One Acre Wood is a front row seat to lots of wildlife, especially singing birds. I head out with my coffee, my book, and my dog most mornings and it helps me prepare for the busy day ahead.
